

SCAN BODY IDENTIFICATION

It may seem impossible to keep track of the numerous implant companies and scan body types. The Trosvig team has created this document so you can easily identify the most commonly used scan bodies and their appropriate implant systems.

Unless otherwise noted, the below scan bodies are suitable with only their manufacturer's proprietary implant system.

- Thommen

- Atlantis Trios
 - BioHorizons
 - Biomet 3i
 - Camlog
 - DENTSPLY/Astra
 - Nobel Active
 - Nobel Replace
 - Straumann Bonelevel
 - Zimmer

- Straumann

- Preat Lab
 - Zimmer
 - Straumann
 - Nobel Active
 - Nobel Replace
 - 3i Certain
 - Astra
 - Branemark
 - Neoss
 - Prima Connex
 - Camlog

- BioHorizon 3.0

- Glidewell Lab (old)
 - Zimmer
 - Straumann
 - Nobel Active
 - Nobel Replace
 - 3i Certain
 - Astra
 - Branemark
 - Neoss
 - Prima Connex
 - Camlog

- Straumann (mono)

- MIS
 - MIS Internal Hex or C1

- Bredent

- Biohorizons

- Paltop
 - Paltop Advanced
 - Paltop Conical Active
 - Paltop Multi-unit

- Zimmer

- Bicon

- Implant Direct

- ELOS
 - Zimmer
 - Straumann
 - Nobel Active
 - Nobel Replace
 - 3i Certain
 - Astra

- Dess
 - All Implant Systems

- Sterngold
